

## About “The Jack Pot” Fund

On May 28, 2010, we welcomed into the world our first child, a beautiful baby boy named John Robert Hickling (“Jack”). We were surprised to learn on the day of his birth that Jack was born with a little something “extra.” As new parents, we navigated through the twisted roads of our unexpected journey, only to quickly learn what an incredible and rewarding experience it is to have a child with Down Syndrome. This journey, however, would have been especially challenging without the help, love and support of so many caring people.

Jack has everything he could ever want ... he has lots of toys and books, wonderful therapists, and the medicines he needs to stay healthy. *But not all of his friends do.* So, to honor and celebrate Jack and other children like him on his first birthday, we have created “The Jack Pot” fund. “The Jack Pot” Fund will benefit Jack’s friends in need that are part of the Down Syndrome Network of Greater Greensboro. Once “The Jack Pot” is more established, this fund will be used to help local families of children with Down Syndrome pay for expensive medical or therapy co-pays, medications, or medical supplies that they struggle to afford on their own. No child should go without what he or she needs to prosper, especially when help is out there.

Please help us help Jack’s friends in need and consider a donation to “The Jack Pot” today!

All our love and many thanks,  
Korey, Robert and Jack Hickling
